## 1.1 LIFTING A MENTALLY DISTURBED POOR MAN FROM DREADFUL CONDITIONS

**DATE: 12 JUNE, 2017, MONDAY**

At Samoon, we consider Humanity as our religion and this was proven by one of our members, Mr. Vinod Jethuri when he came across a poor man in extremely deplorable conditions near a juice stall on 12th of June 2017 in the city that is home to many ashrams - Rishikesh, Uttarakhand. The man who was wearing dirty, ragged clothes looked like he hadn't eaten for days, had unkempt long hair and an overgrown beard. When our team member asked him if he would like to have juice himself, he nodded instantly with an eager look on his face. When he came forward to take the juice, Mr. Jethuri had a sudden sniff at the strong peculiar odor that was reeking out of him and his clothes. It was clear he hadn't bathed or washed for a long time. Seeing his pitiful condition, Mr. Jethuri decided to help him immediately.

First, he took the man to a barber nearby on his own scooter and asked for a haircut for him. The barber refused to work on him owing to the social taboo that revolves around poor people, so they went to another barber who agreed to cut his hair and trim his beard but only by using an electric trimmer. While the man got his trimming done, Mr. Jethuri went to a nearby garments store to buy a fresh pair of undergarments for the man, a bar of soap to wash him and some old

clothes of his own from his home. After having his hair cut, he took him to a hand pump to wash him. Seeing that, a lot of people on the road started to object but Mr. Jethuri asked them to leave sternly. When Mr. Jethuri had him remove his clothes for bathing, he saw that the man used to urinate and defecate inside his pants itself as the man was mentally unfit. The urine and feces ran down his legs each time and had dried off, stuck to the lower body parts. This was the reason the man had a bad odour emanating from his body. A few kind people who saw the whole thing came to lend a hand.

After finishing washing him, Mr. Jethuri saw that the man had a gaping wound on his head that looked painful. He then took him to a nearby clinic to get his wound treated. After having done that, he bought him some food to eat and water to drink and sent him back on his way. These little yet significant efforts made by our team members gave this poor and mentally unfit man a chance to have a better, dignified life for a few days if not much. Pulling this man out of horrible conditions gave our team members unparalleled satisfaction. This small venture inspires us to do more and to inspire people to take out a few hours from their lives to help such socially rejected people and make their lives worth living.

Serving humanity is our ultimate aim.

## 1.1.1 LIFTING A MENTALLY DISTURBED POOR MAN FROM DREADFUL CONDITIONS

**DATE 12 JUNE, 2017, MONDAY**

At around 10 AM in the morning, under the burning heat in the town of Dhalwala, Rishikesh, Mr. Manoj Nautiyal a Samoon team member was on his way to the market in an auto-rickshaw when his eyes struck the sight of a man who was lying on the middle of the street, naked and helpless. After finishing his chores at the market and reaching back home, he contacted Mr. Jethuri, another Samoon member and narrated what he saw in the morning and they decided to help this poor man. They took some old clothes from their home for the man and reached the place where Mr. Nautiyal found him.

They were shocked when they saw the condition of the man. He was lying helpless in the middle of the road and cars rushed past him without anyone stopping to help him or move him out the road to prevent him from harm or injury. Some people were trying to push him off the road using sticks. The man was mentally and physically challenged. They quickly went there and moved him to the footpath safely, made him wear clothes and gave him water and a glass of juice to drink. Some people tried to help him by giving him money, but because the man was mentally unfit, he couldn't collect the money and it flew away from him, going to waste and of no use to him. Our team members tried to stop people from giving him money but they did not listen. He did not need money but instead, he was in need of clothes and food. Mostly when someone tries to help poor and underprivileged people, they try to do it with as little effort as possible, thinking it will earn them some goodwill. They do not give enough thought to what resources the poor person actually needs.

The man who lay in the middle of the road since morning had no one to take him to the side or cloth him, both his arms and elbows were scraped and burned badly as he had tried to move his body across the road using the upper body. His legs were of no use and were handicapped.

To help him further, our team took him to the nearest Police Station and told them the situation. They immediately asked two of their policemen to escort and help us. All of them then took him to the Government Hospital to get him admitted to the mental facility there but they were told that mental patients were

not admitted to their hospital and asked them to take him to a mental hospital located in Selaqui, a town ahead of Dehradun. Our members tried to search the internet for the details and contacts of the mental hospital but they couldn't find anything substantial.

By then, it was almost the end of the night, our team took him to a nearby hotel and requested the hotel manager to give him shelter for one night and he agreed to the request. They gave him food and left with the promise of coming back in the morning the next day to take him with them to the mental hospital in Dehradun. When they arrived at the hotel the next morning, the man was nowhere to be found and the manager did not know of his whereabouts either.

Our members tried to help this man in any way possible but they couldn't help him get admitted to a mental facility. We appreciate the humanity, care, and honesty shown by our team members and salute them for their efforts!

## 1.2 HELPED WIDOW BEENA DEVI TO OPEN A RESTAURANT

DATE- 22 JUNE, 2017, THURSDAY

Pan Singh, a truck driver from the town of Dharchula in Pithoragarh district, Uttarakhand lived a comfortable life with his wife, Beena Devi and two sons, Piyush and Ayush. His job as a truck driver was to transport goods from Rishikesh to Karnaprayag and other adjoining districts within the state. As his job required him to work from Rishikesh, he and his family had shifted to Simli village near Karnaprayag for ease of living in 2013. They had rented a room there for their small family and the children went to a local school nearby.

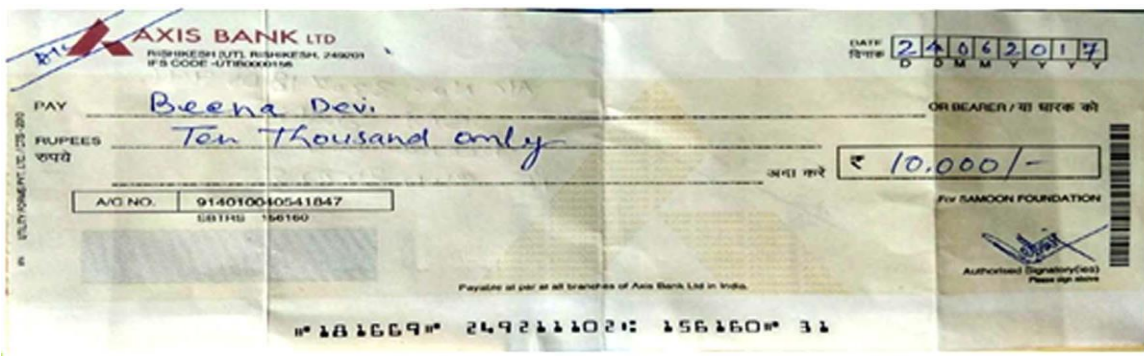

They were living a peaceful life in the village until a tragedy hit them one fateful day. Pan Singh was met with an accident when his truck got caught in floodwaters on the highway and lost his life. A terrible misfortune struck his family which was left to tend to themselves for food and livelihood as Pan Singh was the sole bread earner of the family. Beena Devi wished to go back to their village Dharchula but she did not have any family members there who could support her and her sons. Her in-laws had already passed away and her brother-in-law and his family were themselves struggling with poverty. Owing to the circumstances, Beena Devi had to take a bold decision. To provide for herself and her sons, she decided to open a tea stall in front of her rented room to earn a living. Along with tea, she also used to take food orders for home delivery to nearby homes.

Through her small business, Beena Devi was managing to earn just enough money to feed her family since her husband passed away in 2013. But she wished to take her small business ahead. Having her sons admitted to an English-medium government school for a better future, managing home and their school fees were getting tougher by the day. Due to minimal savings and a lack of finances, she was not able to invest more in her business. She wanted to add groceries and cold beverages to her stall.

When we at Samoon came across Beena Devi and her story, we decided to help her. The courage and resilience that Beena Devi had displayed to take care of her sons, instead of just depending upon others for livelihood, motivated us to do something substantial in order to make her life easier and to help her realize her

dreams. In a meeting of our members, we decided to help her by renovating the tea stall and expanding it into a shop/restaurant. We also decided to provide her with daily items that she can sell at her stall and earn profit from. Apart from that, our members also agreed on financing the education of her sons to an extent. For that, we donated a total amount of **INR 10,000/-** to her.

With the help of these efforts by the Samoon team members and their honest work, Beena Devi now a proud owner of a tea stall and restaurant, run and managed entirely by herself in Simli and living a happy and peaceful life there with her two sons.

It's not practical to think that we individually can change the whole world, but we can surely make the world of one individual better! This is the belief on which our foundation Samoon is built with.

### 1.3 A KIND-HEARTED AND NOBLE DAUGHTER LIKE GAURISHA

DATE- 6 JULY, 2017, THURSDAY

Seven billion people on Earth means seven billion different personalities. Each one is different from the other. Each personality is unique in its own way. Yet some people stand out among the others because of who they are. We all are humans yet humanity is something that is not easily found within the masses. Every day, we come across many people, some kind and some not so kind. Greed is something that has always been the reason for the downfall of countless people time and again. Some people have greed and selfishness in their hearts to such an extent that they feel threatened when asked to help others, especially when money is involved. But the world also has people like Gaurisha who strive to make the world a better place with whatever little efforts they can put up.

Gaurisha, daughter of a reputable senior member of the Samoon family, Mr. Kamal Kant decided to put her first paycheck to a philanthropic cause with the help of our organization. Through our organization, we had registered 41 bright students under a program that aimed to provide financial aid to these students for the completion of their studies. When Gaurisha came to know about this program from her father, she spontaneously insisted upon putting the first salary she was to receive from her first job for the future of these students. When her first salary was credited to her bank account, she immediately transferred the whole amount of INR 30,000/- to the bank account of Samoon Foundation. Through this benevolent act, Gaurisha has set an example for the youth and to all of humanity through her kindness and purity of thoughts at just a young age of 25 years. We celebrate her virtuous nature and hope to encourage the youth of our country to do more for a brighter future of the country.

Not all of us can be as brave and open-hearted like Gaurisha but we can collect one rupee each day of the 365 days each year and we can put the INR 365/- collected to the benefit of a poor person. It will not make you poor or decrease your wealth, rather it will make your soul richer.

Gaurisha's story reminded us of this beautiful couplet by Sant Kabir Das-

“चिड़िया चोंच भरि ले गई, घट्यो न नदी को नीर।  
दान दिये धन ना घटे, कहि गये दास कबीर॥”

Meaning, just like the water of an ocean does not get depleted by a sparrow taking a beakful of water from it, similarly, a person's wealth does not get depleted by giving charity.

**DATE- 29TH OCTOBER 2017, SUNDAY**

7-years-old Divyanshu Kandari has been fighting a battle between life and death since October 6 in the ICU ward of Kailash Hospital, Dehradun. In Saraswati Vihar, Dehradun on the 6th of October, the entire body of Divyanshu was severely scorched from head to toe when he met 11000 volts of high-voltage wire. The doctors had to amputate one of his hands on October 13th to save his life and on October 17th, they eventually had to amputate his entire arm to put him out of risk. A bottle of blood was being offered daily to Divyanshu. Dr. Harish Chandra Ghildiyal, Burn Specialist of Kailash Hospital was treating Divyanshu. Doctors have estimated an overall expenditure of INR 11 lakhs for the full treatment of Divyanshu, which might even exceed this value as the treatment carries on. Divyanshu's parents have already paid the hospital bills of about Rs 4-5 lakhs so far by putting out all their deposits and borrowing from family/relatives/neighbors and other sources and have assured the hospital of paying the remaining amount so that Divyanshu's does not stop treatment.

Divyanshu's father Daulat Singh Kandari, a bus driver in a private school in Dehradun and has put forward everything for the treatment of his son. He originally belongs to the village Rigoli Patti Lostu Badiyar of Tehri district a middle-income man doing his best to take care of his family.

Small financial support from the entire Samoon family was given for the treatment of 7-year-old Divyanshu. A total of INR 12000 / - was raised by our team to help Divyanshu's father in paying for his treatment.

# 1.14 SCHOLARSHIP AWARDED TO 17 BRIGHT STUDENTS FOR HIGHER STUDIES

DATE- 13TH DECEMBER 2017, WEDNESDAY

Student Career Guidance Camp and Student Scholarship Distribution Program were organized by the Samoon Foundation on 12 December 2017 at ONS Government College Devprayag, Tehri Garhwal. This camp was organized with the objective of providing proper guidance and assistance for employment along with the physical, mental, intellectual and spiritual development of students.

A 5-member team of Samoon with teachers and counsellors guided the students in this camp. The Samoon family provided the entire expenditure of one year of education for 17 selected financially weak and mentally strong students in the form of scholarship and will continue to help them in all stages. We humbly requested all the people that they should take the auspicious opportunity to contribute to the bright future of the students according to their talents and abilities.

Human beings have been considered social animals. It also creates a society and man is also indebted to society. He makes his own value and stands by learning from society itself. If a person is indebted, he should awaken the spirit of charity in his instinct to repay this debt. As he is taking from someone, he should also try to return the same. There are many types of donations mentioned in Gita, in which selfless donation is considered to be the best. But among all the donations, the donation of knowledge is said to be the best.

We thank all the members of Samoon for taking part in this event and making it a success.

## 1.16 HEART SURGERY WAS THE ONLY OPTION TO SAVE THE LIFE OF A NEWBORN BABY

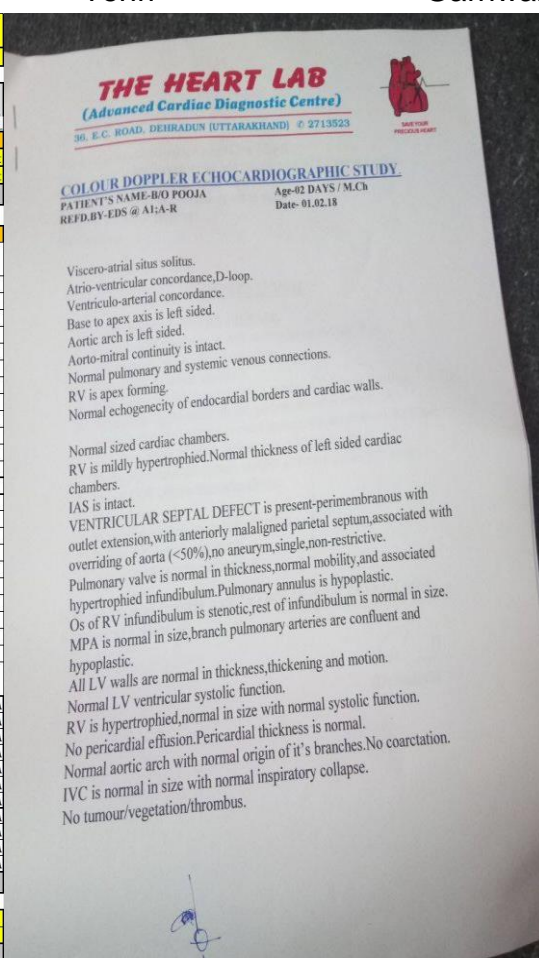

**DATE- 20TH FEBRUARY 2018, TUESDAY**

In Yashpal and Puja Chauhan's house, a small child was born and a wave of happiness ran in the family. Congratulations started coming from all sides, but at that very moment, the doctor told the parents that the child was having trouble in breathing and after testing, it was found that there was a hole in the heart of the newborn baby but it couldn't be operated immediately, so the newborn's life might be in a danger.

Yashpal somehow maintains and supports his family by doing daily labour. For him, paying a huge amount of INR 4 to 5 lakhs was very difficult to arrange and has left the decision of his newborn's survival to God and brought the baby home from the hospital, thinking that if the baby had a few days to live, it would live at his home.

Through a mutual contact, the Samoon family came to know about that the family was unable to pay the fees for the treatment of their newborn baby due to lack of money. Our team then contacted the family and assured that we will somehow get the child to Ganga Ram Hospital in Delhi where the baby's treatment can be performed successfully. The family resides in village Ghightat Patti Dogi, Tehri Garhwal.

## 1.17 SMALL HELP OF INR 50,000/- PROVIDED TO CANCER PATIENT RAJKAMAL FOR HIS SURGERY

**DATE- 25TH MARCH 2018, SUNDAY**

Rajkamal who was suffering from cancer was admitted to Dehradun's Himalayan Hospital, and the doctors said that the results can be tragic if the operation was not performed on time. The cost of the operation was at least INR 250,000 / -. It was impossible for this poor family to arrange this huge amount of money.

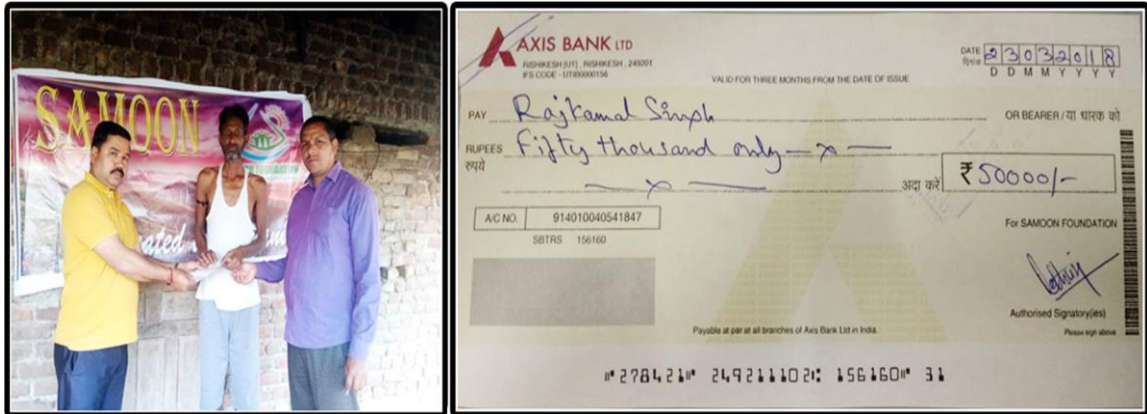

Rajkumar, a driver by profession and has come back home owing to his condition and illness for the past one year and there was no other source of income in his family. Due to the circumstance, arranging food for his two children, a wife, and an ageing mother in the family has become very difficult.

The Samoon family is constantly working for the service of humanity, with the aim of not losing anyone's precious life due to lack of money. For the treatment of Rajkamal who was suffering from cancer, a cheque for a small amount of INR 50,000 / - was deposited in the account of Rajkamal by Samoon team member Dhanbir Singh Jethuri and Saroop Singh Pundir along with the Samoon family

members and helpers. As a result of the efforts of Saroop Singh Pundir and the Karmat Pradhan of Shyampur, the remaining amount of treatment was paid for with the help of a health care card in the Himalayan Hospital, Dehradun where Rajkamal was admitted and being treated.

### 1.17.1 UPDATE-

Rajkamal is now healthy and is again performing the responsibilities of his daily life and has returned to work. The Samoon family thanks all the donors and wishes Rajkamal a happy life.
